Our growing originations team continued executing at a strong pace, as we entered into gross commitments of \$124.4 million and funded \$87.1 million providing a tremendous start to 2021. Investment Income increased by 41% year-over-year allowing us to increase our first quarter dividend to \$0.28 per share and NAV per share increased by 5% to \$13.69 per share. Our portfolio continues to perform well with over 99 percent of our portfolio current, reflecting our disciplined underwriting. Altogether, the results set a strong foundation for the rest of 2021."

### First Quarter 2021 Operating Results

For the three months ended March 31, 2021, total investment income was \$17.3 million compared to \$12.2 million for the quarter ended March 31, 2020. This represents an effective yield on the average debt investments at cost of 15.5% and 15.0% for the periods ended March 31, 2021 and 2020, respectively. Effective yields generally include the effects of fees and income accelerations attributed to early loan repayments, and other one-time events and may fluctuate quarter-to-quarter depending on the amount of prepayment activity.

Total expenses, excluding interest expense, for the first quarter 2021 were \$5.5 million compared to \$2.3 million during the first quarter of 2020. The increase was primarily attributable to increased headcount, higher variable compensation and D&O insurance costs. Interest expense was \$4.6 million compared to \$4.3 million during the first quarter of 2020.

Net investment income was approximately \$7.3 million, or \$0.31 per share for the first quarter 2021, compared to \$5.7 million or \$0.32 per share for the first quarter 2020. Net investment income per share during the first quarter of 2021 reflects Trinity's larger weighted average share count for the quarter as a result of approximately 8.0 million shares issued in connection with its initial public offering.

First quarter 2021 realized net gains on investments were approximately \$2.6 million, compared to a net realized loss of \$0.9 million during the first quarter of 2020.

Net unrealized appreciation was \$15.5 million during the first quarter of 2021, compared to net unrealized depreciation of \$24.3 million during the first quarter of 2020.

First quarter 2021 net increase in net assets resulting from operations was \$25.3 million, or \$1.08 per share. This compares to a net decrease in net assets resulting from operations of \$35.5 million or \$1.97 per share for the first quarter 2020.

## Net Asset Value

As of March 31, 2021, NAV per share increased by \$0.66 per share to \$13.69, compared to \$13.03 as of December 31, 2020. The increase in NAV per share was attributed to net investment income, net realized gains and unrealized appreciation on our investment portfolio. Total net assets as of March 31, 2021 were \$361.6 million, an increase of \$122.8 million as compared to December 31, 2020 primarily attributable to the net proceeds of \$104.2 million from our IPO.

## Portfolio and Investment Activity

As of March 31, 2021, Trinity Capital's investment portfolio had an aggregate fair value of approximately \$535.7 million and was comprised of approximately \$335.7 million in secured loans, \$128.0 million in equipment financings, and \$72.0 million in equity and equity-related investments, including warrants across 80 portfolio companies.

During the first quarter, the Company originated \$124.4 million of total new commitments. First quarter investments funded totaled approximately \$87.1 million, which was comprised of \$44.5 million of investments in 6 new portfolio companies and approximately \$42.6 million of investments in 13 existing portfolio companies. The Company continues to shift its portfolio to floating rate loans with approximately 32.1% of its debt portfolio at floating rates at March 31, 2021 compared to 25.4% at December 31, 2020.

Proceeds received from repayments of the Company's investments during the first quarter totaled approximately \$67.0 million, which included \$40.8 million from early debt repayments. The portfolio increased by \$26.9 million on a cost basis, and by \$42.1 million at fair value as compared to December 31, 2020.

At the end of the first quarter, loans to three portfolio companies were on non-accrual status with a total fair value of approximately \$1.4 million and cost basis of \$2.3 million, or 0.3% and 0.5% of our debt investment portfolio, respectively.

The following table shows the distribution of our loan and equipment financing investments on the 1 to 5 investment risk rating scale at fair value as of March 31, 2021 and December 31, 2020 (dollars in thousands):

Investment Risk Rating Scale Range	Designation	March 31, 2021		December 31, 2020	
		Fair Value	Percentage of Total Portfolio	Fair Value	Percentage of Total Portfolio

Total		<u>\$ 463,684</u>	<u>100.0%</u>	<u>\$ 443,219</u>	<u>100.0%</u>

For the periods ending March 31, 2021 and December 31, 2020, our loan and equipment financing investments had a weighted average risk rating score of 3.2. Trinity will generally adjust the risk rating down as a portfolio company approaches a need to raise additional capital to maintain operations. We anticipate that various companies in our portfolio will need to raise additional capital on a periodic basis as they emerge from the early growth stage of operations.

## Liquidity and Capital Resources

As of March 31, 2021 the Company had approximately \$108.5 million in available liquidity, excluding \$15.3 million in restricted cash and cash equivalents. At the end of the period, the Company had \$72.5 million in available borrowing capacity under its credit facility, subject to existing terms and advance rates and regulatory and covenant requirements.

As of March 31, 2021, the Company's leverage was 60.8% as compared to 130.0% as of December 31, 2020. The decrease in the leverage ratio was attributable to the repayment of \$90.0 million under our credit facility from the proceeds of our IPO.

## Distributions

On March 24, 2021, the Company's Board of Directors declared a distribution of \$0.28 per share with respect to the quarter ending March 31, 2021, which was paid on April 16, 2021 to shareholders of record as of March 31, 2021.

Trinity Capital's distribution reinvestment plan provides for the reinvestment of distributions in the form of common stock on behalf of its stockholders unless a stockholder has elected to receive distributions in cash.
